

GOODSMELL

GoodSmell is a service to remove odor (bad smell), sanitize and disinfect your area.

We use a herbal liquid disinfectant product (alcohol-free) that has versatile efficacies to control foul odors from urban waste grounds, fish, and other perishable and rotten waste in marketplaces. It can effectively disinfect the domestic floors, hospitals, nursing homes and community centers and public toilets from pathogens, including viruses.

GoodSmell

Remove Bad Odor. Sanitize.
Disinfectant.

GOODSMELL is a herbal formulation for maximum disinfection from pathogenic organisms i.e, bacteria, viruses, insects, pest repellent to control mosquitoes. **GOODSMELL** is an excellent deodorant that removes foul odors from any affected area. **GOODSMELL** is formulated from a unique composition of plant-derived volatile oils from Citronella (*Cymbopogon citratus*), Lemon grass (*Cymbopogon citrates*) and pine (*Pinus species*).
